Good evening.

Your request is as follows:

I am processing this email as an electronic public record disclosure request for all information in electronic form pertaining to the Security Corporation contracted and used at all Constitutional Guaranteed and Protected Courts in The State of Washington:

A search was carried out in response to your request.

- We have confirmed that there is no contract between the Supreme Court and any security corporation.
- We have confirmed that there is no contract between the Court of Appeals, Division I, and any security corporation.
- We have confirmed that there is no contract between the Court of Appeals, Division II, and any security corporation.

We will complete our research and will be in touch with you again with any further information next week. Thank you.
